

The image shows a vertical rectangular container for agricultural herbicide. The top section features the brand name "PURARROZ® 10 PM" in large, bold letters, with a stylized orange and green logo. Below this, the product type "HERBICIDA AGRICOLA" is written in a black box, followed by "POLVO MOJABLE - WP".

A central label contains the following information:

- COMPOSICION QUIMICA:** Pyrazosulfuron ethyl..... 100 g/kg; Aditivos..... 900 g/kg.
- Reg. N° 542-97-AG-SENASA**
- Titular del Registro, Formulator y Distribuidor:** TQC Tecnología Química y Comercio S.A., Av. Separadora Industrial Mz E, Lote 12, Urb. Santa Raquel 2da Etapa, Atte. Lima – Perú. Telf.: 348-1103, Fax: 348-1020, RUC: 20307150981.
- CONTENIDO NETO: 200 g**

Below the main label are three safety icons: "NO EXPLOSIVO", "NO INFLAMABLE", and "NO CORROSIVO". A large blue banner across the middle reads "LIGERAMENTE PELIGROSO - CUIDADO".

The bottom half of the container has a white background with various safety instructions and pictograms. It includes a table for application rates based on crop type (CULTIVO) and dosage (DOSIS). The table lists crops like ARROZ and MALEZAS with corresponding application rates in g/L or g/m². Below the table, there are several sections of text providing detailed usage instructions, safety precautions, and first aid measures. These include warnings about avoiding contact with skin and eyes, and advice on how to handle spills and dispose of the product safely. Pictograms illustrate the correct use of protective equipment and disposal methods.

Dimensions are indicated on the left and right sides of the container: 15 mm, 205 mm, and 230 mm. The top width is 155 mm.
